### Organic Care Products

Our organic care products are a range of living skin care products, hand-made, using only cold-pressed, organic, vegan, cruelty- and chemical-free ingredients.

Our products have outstanding skin moisturising and uplifting qualities because they are absolutely pure, alive and made with the Earth's most nourishing and beautifying skin care ingredients, which are far more effective than any chemical or artificial moisturisers.

Through a special low temperature process, the organic skin care products retain all the life energy, antioxidants, vitamins, minerals and essential fatty acids in the ingredients, which help to moisturise, heal and revitalise all kinds of skin.

Products containing essential oils should not be taken internally; furthermore essential oils should never be used undiluted. Swallowing oils is injurious to health and can cause damage to the lungs. In case oils were swallowed do not vomit, in fact contact immediately and without exception medical attendance.

Oils of any kind can cause skin irritations and allergic reactions; eye contact as well as contact with the mucous membranes has to be avoided.

During pregnancy, it is extremely important to be cautious about what you eat and put on your body. It is best to err on the side of caution and we therefore recommend avoiding all products containing essential oils during pregnancy any nursing.

All products containing essential oils should be stored safe and out of reach of children and pets. Store cool, dark and dry.
